Education

- Bachelor's Degree in Computer Science | Université de Sherbrooke | Sherbrooke | 2019 – 2022
- College Degree in Computer Science | Cégep de Granby | Granby | 2016 – 2019

Experience

- **Software developer | Genetec internship | Sherbrooke | Summer 2021**
  - Develop a plugin to integrate smart locks and keys into Genetec's Security Center application so that they can configure access controls and monitor their activities using the company's partner API.
  - Maintain other older plugins like the one in the first bullet point.
  - Plugins made with C#, .NET 4.8 and SQL Server.
  - Development done as a team (Agile/Kanban).

- **Product development | Novom Interactive internship | Magog | Fall 2020**
  - Develop and maintain a web application to organize online conference and talk with others by webcam or chat.
  - Web application made with Javascript (React, NodeJS) and AWS.
  - Development done as a team (Agile/SCRUM).

- **C# programmer | Clinique Vétérinaire de Coaticook internship | Coaticook | Winter 2020**
  - Design, develop and deploy software to plan veterinary preventive medicine visits on farms and centralize information and avoid loss.
  - Software made with C#, .NET 4.7.2 and SQL Server.
  - Development done alone.

- **C# programmer | NB Automation | Granby | Summer 2019**
  - Develop and maintain quality control software that allows users to verify criteria of their choice on manufactured products.
  - Software made with C#, .NET 4.7.2 and SQL Server.
  - Development done as a team.

- **C# programmer | Cordé Électrique internship | Valcourt | Spring 2019**
  - Develop and maintain software that helps employees make welds and a mobile application using a scanner to manage inventory.
  - Softwares made with C#, .NET 4.7.2, Xamarin and SQL Server.
  - Development done alone.
